## Importer of Record and CARM

### Context

1. Importers and owners are required to account for goods imported into Canada. Customs brokers may account for the goods on an importer's or owner's behalf, declaring their client or themselves as the importer of record. A person authorized may account for goods in lieu of the importer or owner and become the importer of record under the Courier Low-Value Shipment Program.
2. The CBSA recognizes customs brokers and persons authorized as authorized agents.
3. To transact business with the CBSA, commercial entities must have a business number (BN) with an import/export account number (RM). Those together identify the importer of record.

## Non-Resident Importer/ NRI

The NRI program allows overseas businesses to get a Canadian Business Number (BN). This is the most common way for foreign companies to import goods to Canada.

This program allows foreign companies to effectively operate as a Canadian company. It can simplify the import process.

**Become a non-resident importer and act as your own distributor to Canada.**

The requirements include record keeping, posting of a surety bond to benefit from customs release prior to payment of import fees, and reporting.

Note that different methods for determining the value for duty may be necessary for NRI imports.

## HS Codes

### Generic Harmonized System (GHS) to Canada

Canada has a tariff classification process for qualified postal and courier imports. The system may be used in lieu of a more detailed classification. This a great benefit for e-commerce imports.

This gives the option to apply one of three generic Most-Favoured-Nation (MFN) tariff rates. Assessment on “special classification provisions” found in Chapter 98 of Canada’s Customs Tariff.

GHS Tariff Structure		
Tariff Item	MFN Tariff	Preferential Tariff Treatment
9825.10.00	20%	e.g. UST/MT/ CT - Free
9825.20.00	8%	e.g. UST/MT/ CT - Free
9825.30.00	0%	e.g. UST/MT/ CT - Free

## Canadian Tariff Classification Confirmation

### **Advance Ruling**

Importers to Canada can request an advance ruling to verify the correct tariff classification. Request can be made directly to Canadian customs/ CBSA.

## Valuation / Value For Duty

### Transaction Value

In the majority of the cases, the correct value to declare at export and import is the “transaction value.” The transaction value is the price paid - or payable - for the goods.

Customs considers the cost shipping and insurance as part of the transaction value (known as CIF value).

## Country of Origin

Just the purchase and shipping an item from Colombia does not grant duty free status to Canada

**Shipping from Colombia ≠ Colombian origin goods**

To benefit from preferential duty free import to Canada, goods must qualify under the rules of origin under the CETA

### **All Shipments from Colombia are subject to:**

- Standard import processing
- “Most Favoured Nation” / default rate of duty (unless they qualify as originating)
- Restrictions on specific categories including food, drugs and alcohol

## Canada's Import Tariffs / Duty

Import Duty is primarily determined by three main factors

- HS Code / tariff classification
  - Country of Origin
- = % Duty

$\% \text{ Duty} \times \text{Value} = \text{Resulting duty assessment}$

\* Note that duty is sometimes based on volume, weight or other measurements rather than value

## Other Canadian Import Fees

- Federal and Provincial sales tax
- Entry Preparation and related Fees
- Carrier Disbursement Fee

### Return Solutions and Canada Logistics Support

A necessary consideration when setting up export processes to a foreign country is management of returns.

- Refused deliveries
- Damaged goods
- Regular product returns
- Receive and reship

Jet Worldwide currently manages Amazon removal order, and return support for overseas companies. Goods ship back via economy air or LCL ocean.
