## HS Codes

### Peru HS codes versus Canadian HS codes

The main difference between HS codes in Peru and Canada lies in the additional digits. The first six digits are harmonized globally

- The Harmonized schedule Canadian Customs Tariff
- Peru also adheres to the Andean Community of Nations (CAN) standard as well as their own (in the final digits).

### Generic Harmonized System (GHS) to Canada

Canada has a tariff classification process for qualified postal and courier imports. The system may be used in lieu of a more detailed classification. This a great benefit for e-commerce imports.

This gives the option to apply one of three generic Most-Favoured-Nation (MFN) tariff rates. Assessment on “special classification provisions” found in Chapter 98 of Canada’s Customs Tariff.

Tariff Item	MFN Tariff	Preferential Tariff Treatment
9825.10.00	20%	e.g. UST/MT/ CT - Free
9825.20.00	8%	e.g. UST/MT/ CT - Free
9825.30.00	0%	e.g. UST/MT/ CT - Free

## Valuation / Value For Duty

### Transaction Value

In the majority of the cases, the correct value to declare at export and import is the “transaction value.” The transaction value is the price paid - or payable - for the goods.

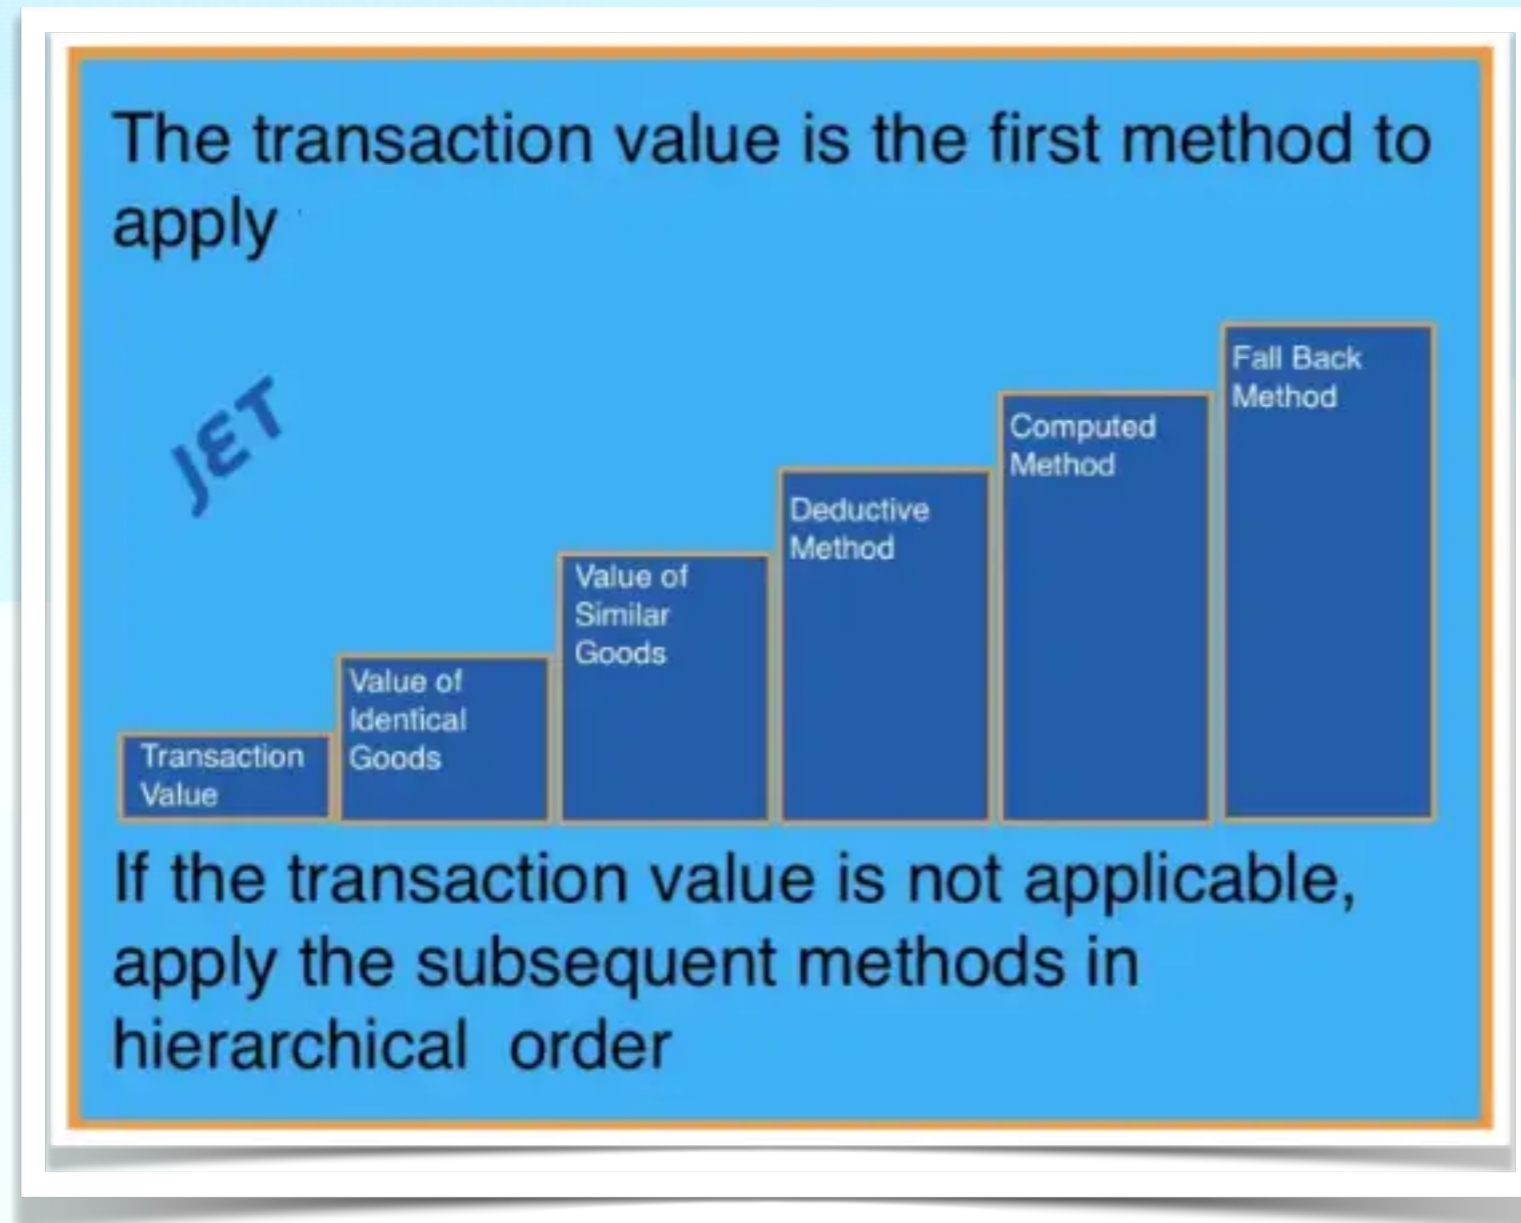

The cost of shipping and insurance is included as part of the transaction value (known as CIF value).

To benefit from preferential duty free import to Canada, goods must qualify under the rules of origin under a free trade agreement.

### All Shipments from Peru are subject to:

- Standard import processing
- “Most Favoured Nation” / default rate of duty (unless they qualify as originating)
- Restrictions on specific categories including food, drugs and alcohol

## Canada's Import Tariffs / Duty

Import Duty is primarily determined by three main factors

- HS Code / tariff classification
  - Country of Origin
- = % Duty

$\% \text{ Duty} \times \text{Value} = \text{Resulting duty assessment}$

\* Note that duty is sometimes based on volume, weight or other measurements rather than value

## Export Declaration

Confirm the export formalities from Peru.

Businesses exporting from Peru must have a Unique Taxpayer Registry or (RUC) number. High value exports require a formal declaration and may be subject to export related fees.

Note that the HS classification for export may be different than the HS code that applies to Canadian import.

## Peru Canada Free Trade Agreements

Canada and Peru share two trade agreements:

- Canada and Peru are part of the **CPTPP** free trade agreement
- And.. have a bilateral agreement: **Canada Peru FTA**

Both agreements allow most Peru origin goods to import duty free to Canada (and vice versa)

- Businesses can choose either option

## Non-Resident Importer/ NRI

The NRI program allows Peru businesses to get a Canadian Business Number (BN). This is the most common way for foreign companies to import goods to Canada.

This program allows Peru companies to effectively operate as their own Canadian distributor.

The requirements include record keeping, posting of a surety bond to benefit from customs release prior to payment of import fees, and reporting.

**Note: Different methods of valuation/ “value for duty” may apply**
